Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers, an arrangement which will account for many young persons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations not commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in the Table, as they are generally engaged in the same business as their husbands.

* The *Educational* Census gives the number of female children *belonging to Schools* in London as 113,420.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION I.—LONDON.

*** This Table includes those persons *only* who in the Householders' Schedules stated themselves to be Masters in conformity with the following instruction printed on every Schedule. "In Trades the Master is to be distinguished from the Journeyman and Apprentice, thus—'*Carpenter* (*Master employing* [6] *Men*)'; inserting always the number of persons in the trade in his employ on March 31st." Many employers,—in some trades more than one half of the whole number,—omitted to attend to this instruction, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable just deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in London. For the whole number of persons engaged in special branches of labour see the preceding Tables.

* The numbers in this Table are obtained from the Householders' Schedules of those persons who gave the number of persons in their employ. This return is imperfect, and only serves to indicate some of the branches of trade in which Women and Children are employed. The whole numbers engaged in the respective occupations will be found in previous Tables (pp. 10–15).

FARMERS (ACREAGE AND MEN).

DIVISION I.—LONDON.

*** The following instruction was placed on every Householder's Schedule: "The term *Farmer* to be applied only to the *Occupier of Land*, who is to be returned—*Farmer of* [317] *Acres, employing* [12] *Labourers;* the number of acres, and of in and out door labourers on March 31st being in all cases inserted." The subjoined Table has been compiled from the returns which Farmers (either occupying land in the suburbs within the London District, or staying temporarily in London,) made in conformity with the above instruction. Several who returned themselves as farmers were also engaged in some other business, as *Market Gardener, Miller,* &c., and when they have omitted to distinguish the labourers of the farm from their other workmen the whole have necessarily been inserted in this Table. The secondary occupations of the occupiers of land will be found in a general Table, for which, and for further explanation of this Return, see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on each of 3 farms or holdings of 10 and under 20 acres, on 2 farms of 30 and under 40 acres, on 1 farm of 100 acres. Read *horizontally*, the Table shows that by Farmers occupying 100 and under 150 acres each, 2 returns were made as employing each 2 men, 2 as employing each 3 men, 8 as employing each 4 men, 3 as employing each 5 men.

The above numbers exclude 47 women also employed as Labourers on farms.

Precise number of Labourers returned:—*a* 64; *b* 100; *c* Two farmers cultivating respectively 1,480 and 1,620 acres, and employing 60 and 120 men respectively; *d* 90 men.

* The number of Farmers appearing in this Table will not agree with the number as returned in the Occupation Tables, the difference being caused partly by the omission of such Farmers as made no return respecting either the acreage of their farms, or number of men employed, and partly by the fact that in the Occupation Tables persons who had formerly been Farmers, but who at the time of the Census had either retired from business or become inmates of institutions, were referred to their former occupations. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here included amongst "Farmers," while in the Tables of Occupations they are referred to that other business, from the circumstance of its being their chief pursuit.

* The *Registration Counties* consist of groups of entire Registration Districts; which Districts are, in general, identical with the Poor Law Unions. As the principle has been adopted of placing a District or Union which extends into more than one County with the County in which either the principal town or the greater part of the population is situated, the limits of the Registration Counties differ more or less from the boundaries of the Counties proper, as shown in "Population Tables.—I. Numbers of the Inhabitants."

† The *Districts* are collections of contiguous Parishes or Places, combined for purposes connected with the Registration of Births, Deaths, and Marriages; and are generally identical with the Poor Law Unions of the same names. For the Parishes and Places comprised in each District or Union, *see* "Population Tables.—I. Numbers of the Inhabitants." The Districts are arranged topographically under the Registration Counties, and are numbered consecutively from 1 to 623, commencing with the Metropolitan Districts, Division I.

‡ For the *Metropolitan* Districts of Surrey and Kent, *see* London, Division I.

* For definition of *Registration Counties*, see note (*) at foot of the first page of this Division (p. 41).

The Table is read thus:—In Division II.—South-Eastern Counties, there were *unmarried* 515,382 *males*, of whom 294,400 were under 15 years of age,—80,641 aged 15 and under 20 years,—60,042 aged 20 and under 25 years,—and so on; and 494,833 *females*, of whom 288,963 were under 15 years of age,—75,360 aged 15 and under 20 years,—and so on. There were of *married* persons, 261,103 *Husbands*, 194 under 20 years of age,—10,769 aged 20 and under 25 years,—and so on; and 267,337 *Wives*, 1,657 under 20 years of age,—21,604 aged 20 and under 25 years,—and so on. And there were of *widowed* persons, 33,185 *Widowers*, 4 under 20 years of age,—150 aged 20 and under 25 years,—and so on; and 56,546 *Widows*, 33 under 20 years,—345 aged 20 and under 25 years,—and so on. The difference between the number of Husbands and of Wives arises from *married* couples having been apart, and either the Husband or Wife having been absent from the Division on the night of March 30th, 1851.

Note.—In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified with the persons *aged* 15 and under 20.

† The return of scholars here given,—derived from the statements of the householders respecting their children,—will, from various causes, generally differ, more or less, from the Returns of the *Educational* Census. From the latter, it appears that there were in Division II.—South-Eastern Counties, on the day of the Census, 119,215 male children, and 107,040 female children, *belonging to the various schools* in the Division, besides those "under tuition at home," whose education was superintended by a private tutor or governess. The number of the latter class is stated in the subsequent Tables for Registration Counties.

Note.—In the present Tables the Occupations are arranged according to the principle of classification adopted in the preceding Summary. The Roman Numerals and the other figures in the Column headed "Occupations" indicate the numbers of the several Classes and Sub-classes to which the various branches of labour have been referred. When a Class or Sub-class is inapplicable to both Sexes, it occurs only in the Tables for the sex to which it is appropriate.

The Table is read thus:—In the Extra-Metropolitan part of Surrey there were returned 266 Clergymen, of whom 6 were aged 20 and under 25 years, 30 aged 25 and under 30 years, 45 aged 30 and under 35 years, 36 aged 35 and under 40, and so on. *See* Class III. Sub-class 1.

* The "Sons," "Grandsons," "Brothers," and "Nephews," (not otherwise described,) of Farmers and of Graziers, being 15 years of age and upwards, and resident on the farm, &c. are separately returned in Class IX. in connexion with Agriculture, as they are usually engaged in the business of the farm, &c.; those *under* 15 years are returned as children simply, or as scholars, in Class V. All labourers in agriculture (except Shepherds) not living in the farmhouses are returned under the head "Agricultural Labourer (out-door);" those living in the house of the farmer are classed under "Farm Servant (in-door)," including, among others, Waggoner, Carter, Farmer's Groom, and General Servant.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Superannuated persons, and persons described as *retired*, are classed with their former occupation when it is stated. In the same manner, prisoners, paupers, and other inmates of public institutions, when described according to their ordinary employment, are referred to specific occupations; those not so described are returned in Class XVII.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations not commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in the Table, as they are generally engaged in the same business as their husbands.

* The *Educational* Census gives the number of female children *belonging to schools* in the Registration County of Surrey as 13,129.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION II.—SOUTH-EASTERN COUNTIES.

*** This Table includes those persons *only*, who, in the Householders' Schedules, stated themselves to be *Masters*, in conformity with an instruction printed on every Schedule. Many employers,—in some trades more than one half of the whole number,—omitted to supply the required information, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in the South-Eastern Counties. For the whole number of persons engaged in special branches of labour see the preceding Tables.

Total of Women and Children employed	2036	105

* The numbers in this Table are obtained from the Householders' Schedules of those persons who gave the number of persons in their employ. This return is imperfect, and only serves to indicate a few of the branches of trade in which Women and Children are employed. The whole numbers engaged in the respective occupations will be found in previous Tables (pp. 58–87).

* The number of Farmers appearing in this series of Tables will not agree with the number as returned in the Occupation Tables for the same localities, the difference being caused partly by the omission of all such Farmers as made no return respecting either the acreage of their farms or number of men employed, and partly by the fact that in the Occupation Tables, persons who had formerly been Farmers, but who at the time of the Census had either retired from business, or become the inmates of institutions, were referred to their former occupation. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here included amongst "Farmers," while in the Tables of Occupations they are referred to that other business, as their chief pursuit. The secondary occupations of Farmers will be found in a general Table, for which, and for further explanation of this return see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on each of 6 farms or holdings of 10 and under 20 acres, on 7 farms of 20 and under 30 acres, on 11 farms of 30 and under 40 acres, on 6 of 40 and under 50 acres. Read *horizontally*, the Table shows that of 2086 Farmers of 100 and under 150 acres, 89 returned themselves as employing 1 man, 244 as employing 2 men, 311 as employing 3 men, 473 as employing 4 men.

Where the area of cultivated land exceeds 2000 acres, the precise Acreage will be found upon reference to the notes under Counties, together with the precise number of Labourers returned above 59.

The above numbers are exclusive of 787 women and children also employed as Labourers on farms.

* The *Registration Counties* consist of groups of entire Registration Districts; which Districts are, in general, identical with the Poor Law Unions. As the principle has been adopted of placing a District or Union which extends into more than one County with the County in which either the principal town or the greater part of the population is located, the limits of the Registration Counties differ more or less from the boundaries of the Counties proper, as shown in "Population Tables.—I. Numbers of the Inhabitants."

† The *Districts* are collections of contiguous Parishes or Places, combined for purposes connected with the Registration of Births, Deaths, and Marriages; and are generally identical with the Poor Law Unions of the same names. For the Parishes and Places comprised in each District or Union, *see* "Population Tables.—I. Numbers of the Inhabitants." The Districts are arranged topographically under the Registration Counties, and are numbered consecutively from 1 to 623, commencing with the Metropolitan Districts, Division I.

‡ For the *Metropolitan* Districts of Middlesex, *see* Division I.—London.

* For definition of *Registration Counties*, see note (*) at foot of the first page of this Division (p. 139).

The Table is read thus:—In Division III.—South-Midland Counties, there were *unmarried* 378,906 *males*, of whom 227,918 were under 15 years of age,—61,514 aged 15 and under 20 years,—41,652 aged 20 and under 25 years,—and so on; and 371,909 *females*, of whom 224,551 were under 15 years of age,—57,846 aged 15 and under 20 years,—and so on. There were of *married* persons, 206,477 *Husbands*, 245 under 20 years of age,—11,035 aged 20 and under 25 years,—and so on; and 208,240 *Wives*, 1,461 under 20 years of age,—17,882 aged 20 and under 25 years,—and so on. And there were of *widowed* persons, 25,905 *Widowers*, 7 under 20 years of age,—176 aged 20 and under 25 years,—and so on; and 42,895 *Widows*, 15 under 20 years,—232 aged 20 and under 25 years,—and so on. The difference between the number of Husbands and of Wives arises from *married* couples having been apart, and either the Husband or Wife absent from the Division on the night of March 30th, 1851.

Note.—In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified with the persons *aged* 15 and under 20.

Note.—The Table read *vertically* shows the number of *Wives* at each Age, with the ages of their Husbands:—Thus, in the South-Midland Counties, *Two* Wives of the Age of 20 and under 25 years had Husbands aged 17; *Fifteen* had Husbands aged 18; *Seventy-four* had Husbands aged 19; and *Six thousand eight hundred and eighty* had Husbands aged 20 and under 25 years.

Read *horizontally* the Table shows the number of *Husbands* at each Age, with the ages of their Wives:—Thus, *Nine* Husbands of the age 20 and under 25 had Wives aged 16; *Sixty-three* had Wives aged 17; *Two hundred and twenty-five* had Wives aged 18.

At all ages 196,574 Husbands and 196,574 Wives were enumerated as residing together on the night of March 30th, 1851.

There were also 9,903 Husbands whose Wives were absent, (*i.e.*, the Wives were not returned in the same houses as their Husbands,) making in all 206,477 Husbands enumerated; and 11,666 Wives whose Husbands were absent, (*i.e.*, the Husbands were not returned in the same houses as their Wives,) making a total of 208,240 Wives enumerated in the Division.

*** In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified in these Tables of Ages of Husbands and Wives with the persons *aged* 15 and under 16 years.

† The return of scholars here given,—derived from the statements of the householders respecting their children,—will, from various causes, generally differ, more or less, from the Returns of the *Educational* Census. From the latter, it appears that there were in Division III.—South-Midland Counties, on the day of the Census, 86,774 male children, and 74,082 female children, *belonging to the various schools* in the Division, besides those "under tuition at home," whose education was superintended by a private tutor or governess. The number of the latter class is stated in the subsequent Tables for Registration Counties.

* For definition of *Registration County*, see note (*) at foot of the first page of this Division (p. 139).

† The *Educational* Census gives the number of male children *belonging to schools* in the Registration County of Middlesex (*Extra-Metropolitan*) as 13,100.

Note.—In the present Tables the Occupations are arranged according to the principle of classification adopted in the preceding Summary. The Roman Numerals and the other figures in the Column headed "Occupations" indicate the numbers of the several Classes and Sub-classes to which the various branches of labour have been referred. When a Class or Sub-class is inapplicable to both Sexes, it occurs only in the Tables for the sex to which it is appropriate.

The Table is read thus:—In the Extra-Metropolitan part of Middlesex there were returned 185 Clergymen, of whom 4 were aged 20 and under 25 years, 17 aged 25 and under 30 years, 28 aged 30 and under 35 years and so on. *See* Class III. Sub-class 1.

All labourers in agriculture (except Shepherds) not living in the farmhouses are returned under the head "Agricultural Labourer (out-door);" ose living in the house of the farmer are classed under "Farm Servant (in-door)," including, among others, Waggoner, Carter, Farmer's Groom, and General Servant.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young rsons being referred to occupations usually followed by adults. Superannuated persons, and persons described as *retired*, are classed with their former occupation when it is ated. In the same manner, prisoners, paupers, and other inmates of public institutions, when described according to their ordinary employment, are referred to specific

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations not commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in the Table, as they are generally engaged in the same business as their husbands.

* The *Educational* Census gives the number of female children *belonging to schools* in the Registration County of Middlesex (*Extra-Metropolitan*) as 10,703.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION III.—SOUTH-MIDLAND COUNTIES.

*** This Table includes those persons *only*, who, in the Householders' Schedules, stated themselves to be *Masters*, in conformity with an instruction printed on every Schedule. Many employers,—in some trades more than one half of the whole number,—omitted to supply the required information, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in the South-Midland Counties. For the whole number of persons engaged in special branches of labour see the preceding Tables.

* The number of Farmers appearing in this series of Tables will not agree with the number as returned in the Occupation Tables for the same localities, the difference bei caused partly by the omission of all such Farmers as made no return respecting either the acreage of their farms or number of men employed, and partly by the fact that in t Occupation Tables, persons who had formerly been Farmers, but who at the time of the Census had either retired from business, or become the inmates of institutions, w referred to their former occupation. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here includ amongst "Farmers," while in the Tables of Occupations they are referred to that other business, as their chief pursuit. The secondary occupations of Farmers will be found a general Table, for which, and for further explanation of this return, see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on each of 7 farms or holdings of 10 and under 20 acres, on each of 6 far of 20 and under 30 acres, on each of 6 farms of 30 and under 40 acres, and on each of 7 farms of 40 and under 50 acres. Read *horizontally*, the Table shows that of 2,083 Farm of 100 and under 150 acres each, 52 returned themselves as employing each 1 man, 215 as employing each 2 men, 315 as employing each 3 men, 490 as employing each 4 men.

Where the area of cultivated land exceeds 2000 acres, the precise Acreage will be found upon reference to the notes under Counties, together with the precise number of Labourers returned above 59.

The above numbers are exclusive of 599 women and children also employed as Labourers on farms.

* The *Registration Counties* consist of groups of entire Registration Districts; which Districts are, in general, identical with the Poor Law Unions. As the principle has been adopted of placing a District or Union which extends into more than one County with the County in which either the principal town or the greater part of the population is located, the limits of the Registration Counties differ more or less from the boundaries of the Counties proper, as shown in "Population Tables.—I. Numbers of the Inhabitants."

† The *Districts* are collections of contiguous Parishes or Places, combined for purposes connected with the Registration of Births, Deaths, and Marriages; and are generally identical with the Poor Law Unions of the same names. For the Parishes and Places comprised in each District or Union, *see* "Population Tables.—I. Numbers of the Inhabitants." The Districts are arranged topographically under the Registration Counties, and are numbered consecutively from 1 to 623, commencing with the Metropolitan Districts, Division I.

* For definition of *Registration County*, see note (*) at the foot of page 255.

The Table is read thus:—In Division IV.—Eastern Counties, there were *unmarried* 335,930 *males*, of whom 202,705 were under 15 years of age,—54,036 aged 15 and under 20 years,—36,679 aged 20 and under 25 years,—and so on; and 331,904 *females*, of whom 200,686 were under 15 years of age,—51,499 aged 15 and under 20 years,—and so on. There were of *married* persons, 189,701 *Husbands*, 179 under 20 years of age,—8,740 aged 20 and under 25 years,—and so on; and 193,236 *Wives*, 1,142 under 20 years of age,—15,598 aged 20 and under 25 years,—and so on. And there were of *widowed* persons, 23,546 *Widowers*, 3 under 20 years of age,—103 aged 20 and under 25 years,—and so on; and 39,665 *Widows*, 12 under 20 years,—211 aged 20 and under 25 years,—and so on. The difference between the number of Husbands and of Wives arises from married couples being apart, and either the Husband or the Wife absent from the Division on the night of March 30th, 1851.

Note.—In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified with the persons *aged* 15 and under 20 years.

																							193236 Total of WIVES enumerated.		

Note.—The Table read *vertically* shows the number of *Wives* at each age, with the ages of their Husbands:—Thus, in the Eastern Counties, *One* Wife of the Age of 20 and under 25 years had a Husband aged 17; *Five* had Husbands aged 18; *Fifty* had Husbands aged 19.

Read *horizontally* the Table shows the number of *Husbands* at each Age, with the ages of their Wives:—Thus, *Five* Husbands of the Age of 20 and under 25 years had Wives aged 16; *Fifty-one* had Wives aged 17; *One hundred and thirty-seven* had Wives aged 18.

At all ages 181,359 Husbands and 181,359 Wives were enumerated as residing together on the night of March 30th, 1851.

There were also 8,342 Husbands whose Wives were absent (*i.e.*, the Wives were not returned in the same houses as their Husbands), making in all 189,701 Husbands enumerated; and 11,877 Wives whose Husbands were absent (*i.e.*, the Husbands were not returned in the same houses as their Wives), making a total of 193,236 Wives enumerated in the Division.

*** In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified in these Tables of Husbands and Wives with the persons *aged* 15 and under 16 years.

* For definition of *Registration County*, see note (*) at foot of the first page of this Division (p. 255).

† The *Educational* Census gives the number of male children *belonging to Schools* in the Registration County of Essex as 22,447.

Note.—In the present Tables the Occupations are arranged according to the principle of classification adopted in the preceding Summary. The Roman Numerals and the other figures in the Column headed "Occupations" indicate the numbers of the several Classes and Sub-classes to which the various branches of labour have been referred. When a Class or Sub-class is inapplicable to both Sexes it occurs only in the Tables for the sex to which it is appropriate.

The Table is read thus :—In Essex there were returned 461 Clergymen, of whom 10 were aged 20 and under 25 years, 57 aged 25 and under 30 years, 63 aged 30 and under 35 years, 49 aged 35 and under 40 years, and so on. See Class III. Sub-class I.

* The "Sons," "Grandsons," "Brothers," and "Nephews," (not otherwise described.) of Farmers and of Graziers, being 15 years of age and upwards, and resident on the farm, &c are separately returned in Class IX. in connexion with Agriculture, as they are usually engaged in the business of the farm, &c.; those *under* 15 years are returned as children simply, or as scholars, in Class V. All labourers in agriculture (except Shepherds) not living in the farmhouses are returned under the head "Agricultural Labourer (out-door);" those living in the house of the farmer are classed under "Farm Servant (in-door);" including, among others, Waggoner, Carter, Farmer's Groom, and General Servant.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Superannuated persons, and persons described as *retired,* are classed with their former occupation when it is stated. In the same manner, prisoners, paupers, and other inmates of public institutions, when described according to their ordinary employment, are referred to specific occupations; those not so described are returned in Class XVII.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers, an arrangement which will account for many young persons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations not commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in the Table, as they are generally engaged in the same business as their husbands.

* In Norwich and other places many persons employed in the manufacture of silks, of woollens, and of shawls, described themselves simply as "Weavers," without stating the material or particular branch. Such persons have been referred to "*Silk* manufacture," unless from other circumstances it appeared probable that they were engaged in weaving another material, such as wool, &c.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION IV.—EASTERN COUNTIES.

*** This Table includes those persons *only*, who, in the Householders' Schedules, stated themselves to be *Masters*, in conformity with an instruction printed on every Schedule. Many employers of work-people,—in some trades nearly the whole number,—omitted to supply the required information, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in the Eastern Counties. For the whole number of persons engaged in special branches of labour see the preceding Tables.

* The number of Farmers appearing in this series of Tables will not agree with the number as returned in the Occupation Tables for the same localities, the difference being caused partly by the omission of all such Farmers as made no return respecting either the acreage of their farms or number of men employed, and partly by the fact that in the Occupation Tables, persons who had *formerly* been Farmers, but who at the time of the Census had retired from business, are referred to their former occupation. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here included amongst "Farmers," while in the Tables of Occupations they are referred to that other business, as their chief pursuit. The secondary occupations of Farmers will be found in a general Table, for which, and for further explanation of this Return, see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on 1 farm under 5 acres, on 1 farm of 5 and under 10 acres, on each of 7 farms of 10 and under 20 acres, on each of 6 farms of 20 and under 30 acres. Read *horizontally*, the Table shows that of 2,185 Farmers occupying each 100 and under 150 acres, 32 returned themselves as employing each 1 man, 138 as employing each 2 men, 323 as employing each 3 men.

" Where the area of cultivated land exceeds 2,000 acres, the precise Acreage will be found upon reference to the notes under Counties; and where the Labourers returned exceed 59 the precise numbers are stated in all cases.

The above numbers are exclusive of 858 women and children also employed as Labourers on farms.

* The *Registration Counties* consist of groups of entire Registration Districts; which Districts are, in general, identical with the Poor Law Unions. As the principle has been adopted of placing a District or Union which extends into more than one County with the County in which either the principal town or the greater part of the population is located, the limits of the Registration Counties differ more or less from the boundaries of the Counties proper, as shown in "Population Tables.—I. Numbers of the Inhabitants."

†The *Districts* are collections of contiguous Parishes or Places, combined for purposes connected with the Registration of Births, Deaths, and Marriages; and are generally identical with the Poor Law Unions of the same names. For the Parishes and Places comprised in each District or Union, *see* "Population Tables.—I. Numbers of the Inhabitants." The Districts are arranged topographically under the Registration Counties, and are numbered consecutively from 1 to 623, commencing with the Metropolitan Districts, Division I.

* For definition of *Registration County*, see note (*) at foot of the first page of this Division (p. 327).

The Table is read thus:—In Division V.—South-Western Counties, there were *unmarried* 542,817 *males*, of whom 325,438 were under 15 years of age,—88,984 aged 15 and under 20 years,—58,750 aged 20 and under 25 years,—and so on; and 564,113 *females*, of whom 320,185 were under 15 years of age,—89,076 aged 15 and under 20 years,—and so on. There were of *married* persons, 291,271 *Husbands*, 234 under 20 years of age,—12,265 aged 20 and under 25 years,—and so on; and 301,667 *Wives*, 1,337 under 20 years of age,—20,776 aged 20 and under 25 years,—and so on. And there were of *widowed* persons, 32,005 *Widowers*, 1 under 20 years of age,—156 aged 20 and under 25 years,—and so on; and 71,418 *Widows*, 12 under 20 years,—301 aged 20 and under 25 years,—and so on. The difference between the number of Husbands and of Wives arises from *married* couples having been apart, and either the Husband or Wife absent from the Division on the night of March 30th, 1851.

Note.—In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified with the persons *aged* 15 and under 20.
